Experience

Flutter Developer Intern : Fuerte Developers | Jan 2025 – Jun 2025

- Built cross-platform mobile apps using Flutter & Dart.
- Integrated Firebase authentication, real-time database, and push notifications.
- Worked on API integration and state management to ensure smooth app performance.
- Project:
Aapka Vyapar App: A business management app that helps small shopkeepers manage sales, purchases, stock, and customer records. Implemented Firebase backend, data visualization, and secure authentication.

Projects

E-Commerce Cycle Website

- Developed a cycle shopping website with user-friendly authentication, including registration, login, and logout.
- Added functionalities like changing passwords, editing user profiles, and updating profile pictures.
- Implemented search and filter options to simplify product discovery.
- Enabled users to add products to their cart and apply coupon codes for discounts.
- Integrated order history functionality to track previous purchases.
- Created an admin panel for managing users and products efficiently.
